**NEW OIL PRODUCTION CUT  
 HITS LARGE FLOWING WELLS  
 AND PROTECTS SMALL ONES**

New schedules of oil production curtailment, adopted by the Southern California Oil Producers' special committee, throws the burden of bearing down on the largest producing wells.

Under the new schedule the percentage of curtailment starts at zero for wells now producing 500 barrels a day or less and increases to 25 per cent for wells of more than 2000 barrels daily flow. Wells completed after July 31 will be curtailed 50 per cent, according to the new schedule.

A letter to oil producers outlining the new policy follows: "Your committee's letter of July 3rd informed you of a curtailment of production which, in the judgment of your committee and based on estimates of your engineers, was considered sufficient at that time to take care of the congested pipeline and storage facilities.

"We now find the increasing production is exceeding our engineers' estimates to such an extent as to make a further curtailment necessary; therefore, after a careful survey of the facts, we are today requesting those marketing companies who are co-operating with us to immediately further curtail the pipeline acceptances of our production, as well as their own production, on the following basis: "On all wells of less than

500 barrels, no curtailment. "On all wells producing 500 barrels, but less than 1000 barrels, a ten per cent (10%) curtailment.

"On all wells producing 1000 barrels, but less than 2000 barrels, a fifteen per cent (15%) curtailment.

"On all wells producing 2000 barrels or over, a twenty-five per cent (25%) curtailment.

"On all wells completed subsequent to July 31st, a curtailment of fifty per cent (50%), based on the average production covering a four-day test flow.

"All curtailments to be based on the average daily runs for the month of July.

"In departing from the method of curtailment used heretofore, we have attempted to throw the burden of curtailment upon the production from the large wells, and we believe this action will meet with your entire approval.

"Your committee sees nothing to change its former estimates that the peak of production will be reached in the month of September, and a careful check of the wells already completed indicates that the decline will be rapid.

(Signed) "SOUTHERN CALIFORNIA OIL PRODUCERS."  
 "S. A. GULBERSON Jr., Chairman."

**When You Buy a Tire--**

Of course the first consideration is Quality. And the next is the price. You are guaranteed as to the quality when you buy such nationally known tires as GOODRICH and FISK—and you are sure of getting them at ROCK BOTTOM prices when you buy at our garage. We are selling them both at "old prices."

 FIELD PROVEN  
 BY PRODUCER**  
**Collander No. 1 Well of  
 Union Company Is  
 Brought In**

Collander No. 1, the Union Oil company's wildcat in the Compton, is on production, flowing 1200 barrels in pinched production. Reports of the gravity of the oil in the field which this well proves are extravagant. Compton residents declare it to be between 38 and 42 Baume, but the very fact that they do not report the exact gravity indicates that there is uncertainty. No report has been forthcoming from the Union company officials.

C. C. Julian's Pico, in the Compton field, is expected to be on production soon. The drill is penetrating a hard cap rock, under which it is expected, there is an oil sand. Julian Pico units rose \$20 in value last week.

**Five Gulf States Will Hold Picnic**

If you ever lived in Texas, Louisiana, Mississippi, Alabama or Florida, it is your call for a jolly good time with the old home state people. The annual union picnic of the five Gulf states will be held in Sycamore Grove park all day Saturday, Aug. 18. There will be county registers open all day for each state, badges, coffee, basket dinners, program, talkfest. Come out early and bring the basket with you.

Program will begin about 2 o'clock and end when it is over. We will sing the old heart songs and melodies you love. We want your help to make this the best and happiest ever. We expect to have Rev. Robert P. Shuler (Fighting Bob) as our speaker and main attraction—except the basket dinners.

C. H. Parsons, phone 10261, will answer you questions.

The regular meeting of Torrance Review No. 37, Maccabees, will be held Friday evening, Aug. 10, at 7:30. All members are requested to attend.

**"Make Daley's a Daily Habit"**

The average housewife is very little posted on the cost of general merchandise, except those items which are nationally advertised products. The big advantage in dealing with Daley's is that all of the merchandise is sold on a legitimate percentage of profit and no advantage is taken of the speculative market. Price declines are followed immediately, and while it may be true that our price is a cent higher occasionally on one particular item than some other dealer is offering as a special, there may be twenty-five items on which we are lower.

Therefore, it behooves the thrifty housewife to trade regularly at Daley's, because she can feel assured that no advantage will be taken of her on prices at any time.

J. A. DALEY, President.
